Late Change to Degree Audit

DHY3 – Dental Hygiene 2011/2012 2012/2013 catalog

Recommended: Approve – changes required due to recent provincial curriculum amendments.

Deb

PROGRAM/CURRICULUM "RATIONALE FOR CHANGES"

All requests for changes to programs of instruction must be submitted to the Registrar's Office by December 1st each year for changes to be implemented for the following September intake. All changes require the approval of the Dean and possibly the VPA's Office, if significant.

REMINDER: We need to ensure that changes are made properly and in a timely manner to: maximize student success; optimize employment preparation; meet all quality and integrity responsibilities to MTCU, PQAPA and our Board of Governors; and meet community expectations.

- The **Program/Curriculum "Rationale for Changes"** should be completed using this template and all areas must be completed. An electronic copy of this document should be submitted to the Registrar's Office.
- The Dean/Chair responsible for the program should consult with other affected schools and obtain the appropriate sign-offs on a paper copy of this document. Once all consultations and sign-offs have occurred, the paper copy should be submitted to the RO
- Course Request Forms must also be submitted electronically to Strategy and Planning for all new courses. These will be forwarded to Scheduling following approval of the changes by the Dean and possibly the VPA's Office.

1.0 Program Requiring Changes

Program Title:	Dental Hygiene	
Program Alpha & Number:	DHY3	
Effective Catalog Year:		

Please answer each of the questions below, if applicable. Missing or incomplete information may delay approval and/or implementation of the proposed changes.

2.0 Rationale for Changes

2.01 Provide a brief description of the reasons for the proposed changes.

Program Change from DHY2 2 Year Diploma Program to DHY3 3 Year Diploma Program as per MTCU/Provincial CAAT changes to program of study to reflect inclusion of New National Competencies.

2.02 Students

- Are changes a response to student feedback? Or our Programs Data Report - Weak Factors? (summarize how changes address this issue) No
- How will changes affect student learning and success? (describe evidence to support this) Reduced hours/wk allows for improved student learning experience; reduced curriculum compression. Enhanced curriculum to support new National Competencies will facilitate student success on National Board Examination
- How will changes affect cost of the program for students? (e.g., materials fees; equipment fees - laptop program; OSAP implications) MTCU has changed funding - with increased

length - may increase tuition fees - to be determined by Registrar's office. Minor increase in equipment/materials fees.

- How will changes affect the flow of the program? Curriculum changes allow for improved sequencing of theory and practical experience for students.

2.03 Relationship of Program to Industry

- How do changes reflect trends in the field or in industry? (Provide data regarding industry and/or professional trends.) Expanded community placement component allow for increased service to institutionalized population which aligns with community needs and trends.

2.04 Program Learning Outcomes

- How do the changes align with Ministry outcomes? (Provide a copy of the completed program map indicating gaps/overlaps that are being corrected) New PLO's have been accepted by MTCU - provincial CAAT task force and educator working group has completed gap analysis and continues to develop exit outcomes for new program delivery. Work ongoing.

2.05 Relationships with Other Fanshawe College Programs

- Is this course in a ladder program or part of any other Fanshawe College program?

N/A

2.06 Relations with Other Post-Secondary Programs

- How will the changes affect transfer agreements with other post-secondary institutions?
- What discussions have been initiated with these institutions regarding the changes?

Articulation agreements will need to be re-visited once program curriculum work completed and credentialing process completed by MTCU.

2.07 Changes on Fit of Program with general College Requirements for Programs

- How do changes affect the fit of the program with the College's strategic plan, program mix, general education requirements, marketing? No new impact
- Are changes consistent with Colleges policies/practices? (Identify specific areas where policies/practices need to be altered if program changes approved.) Yes

3.0 Consultation Regarding Proposed Changes

3.01 Consultation With Program Advisory Committee

- Indicate feedback from the program advisory committee regarding the changes.

PAC membership have been advised of new National Competencies and rationale for CAAT program changes - feedback has been positive.

3.02 Consultation With Other Programs/Schools/Services

- What programs/schools/services have been consulted? UWO advised as they provide clinical space
- What feedback and suggestions have been offered through consultation? None to date

4.0 Resource Implications of Proposed Changes

4.01 Staffing

• Outline all staffing consequences, both for the program and related areas. Staffing workload adjustment to accommodate ongoing curriculum development. Increased staffing needs expected once 3 year delivery in progress (2013/2014)

4.02 Services

- Outline all consequences on other areas.

To Be Determined

4.03 Space or Technology Requirements

- Outline how changes affect space and/or technology requirements.

To Be Determined

4.04 Budgetary Implications

- Outline budgetary implications (include consequences on other schools such as increase/decrease in teaching hours required)
- Outline changes to materials fees.

To Be Determined

Request for Late Change to Degree Audit Form

To the Division --

FEB 22 2013

1. A copy of the Degree Audit Report (SDAR) with changes marked must accompany this request.
2. Please keep Yellow Copy of the Form and photocopy of SDAR Report with marked changes for your records.
3. Allow 5 business days after receipt in the Office of the Registrar for the completion of this request.

To be completed by Division (please print)

DHY3 Dental Hygiene 05/02/2013
Program # Program Name Date of Request (dd/mm/yyyy)

Health Sciences Caroline Lotz 2011/12 12/13
Division Program Co-ordinator Catalogs (To be updated – attach all copies)

Reason for late change:

When submitting the information for the 2013/14 degree audit, updating 2011/12 and 12/13 was omitted. Degree Audits for these catalogue years require updating in order to allow graduation of the students currently enrolled in the program.

If the change is a correction to the Degree Audit, identify the impact on current students (please review and submit student EVALS with submission to determine possible impact)

Subject: RE: DHY3 changes

Hi Tiffany
Happy Friday!!!!
They're exactly the same as 2013/14.

Thanks for checking
Tina.

Subject: DHY3 changes

Hi Tina,

I received the DAs for DHY3. You didn't indicate any changes. Are they the same changes for 2013/14?

Please advise.

Course/Program Curriculum Changes: Principles

Program Title:	Dental Hygiene	
Program Alpha & Number:	DHY 3	
Effective Catalog Year:	2013 / 14	
Late Request:		

Reviews are likely to be a response to currency, flexibility and access issues. This review should:

- Clearly describe the reasons for and benefits of the change;
- Answer the questions regarding the effects of the changes – see Program/Curriculum "Rationale"

Note: The Faculty Dean must approve the changes at this point before any further work is to be done. Part of this approval will require that program mapping has been completed – see Note for #2 and #3 below. It may also require VPA's Office approval if significant changes are being proposed.

Changes must be to the benefit of the student with no disadvantages; therefore, if courses needed to complete the program are no longer offered, the School must develop a viable pathway to graduation.

Quality assessment of existing programs is achieved through continuous monitoring by the program team.

Reviews validate that the program learning outcomes are relevant/current and that they continue to be met by the graduation requirements in the program.

The essence of a program is represented in its learning outcomes; the graduation requirements identify the courses & activities whose successful completion is necessary to the mastery of the learning outcomes.

Process should be lean – no unnecessary new steps.

Once students start a program in a specific catalog, no changes to that degree audit may be made, e.g., a course change is proposed for third level. December 1st, 2010 for 2011/2012 catalogue means the new course would not be delivered until September 2012.

Changes must be documented – retained by the School as well as archived with the Office of the Registrar.

Communication of changes must be made to all affected stakeholders.

PROGRAM/CURRICULUM "RATIONALE FOR CHANGES"

RECEIVED

DEC 05 2012

REGISTRAR

All requests for changes to programs of instruction must be submitted to the Registrar's Office by December 1st each year for changes to be implemented for the following September intake. All changes require the approval of the Dean and possibly the VPA's Office, if significant.

REMINDER: We need to ensure that changes are made properly and in a timely manner to: maximize student success; optimize employment preparation; meet all quality and integrity responsibilities to MTCU, PQAPA and our Board of Governors; and meet community expectations.

- ➔ The **Program/Curriculum "Rationale for Changes"** should be completed using this template and all areas must be completed. An electronic copy of this document should be submitted to the Registrar's Office.
- ➔ The Dean/Chair responsible for the program should consult with other affected schools and obtain the appropriate sign-offs on a paper copy of this document. Once all consultations and sign-offs have occurred, the paper copy should be submitted to the RO
- ➔ Course Request Forms must also be submitted electronically to Strategy and Planning for all new courses. These will be forwarded to Scheduling following approval of the changes by the Dean and possibly the VPA's Office.

1.0 Program Requiring Changes

Program Title:	Dental Hygiene	
Program Alpha & Number:	DHY3	
Effective Catalog Year:	13/14	

Please answer each of the questions below, if applicable. Missing or incomplete information may delay approval and/or implementation of the proposed changes.

2.0 Rationale for Changes

2.01 Provide a brief description of the reasons for the proposed changes.

Program change for DHY2 from a 2 Year Diploma Program to DHY 3, a 3 year Diploma Program as per MTCU/Provincial CAAT changes to program of study to reflect inclusion of New National Competencies. Levels 5 & 6 course codes are changing to be consistent with the new DHY3 curriculum.

2.02 Students

- Are changes a response to student feedback? Or our Programs Data Report - Weak Factors? (summarize how changes address this issue) **NO**
- How will changes affect student learning and success? (describe evidence to support this)

Reduced hours/wk allows for improved student learning experience; reduced curriculum compression. Moving to a 6 semester/ 3 year program will allow alignment with CAAT DH consensus program of study, access to Transferability Pathways, support the National Entry to Practice Competencies and facilitate student success on National DH Certification Board Examination.

- How will changes affect cost of the program for students? (e.g., materials fees; equipment fees - laptop program; OSAP implications)

MTCU has changed funding- with increased length - may increase tuition fees - to be determined by the Registrar's office. Minor increase in equipment/materials fees.

- How will changes affect the flow of the program?

Curriculum changes allow for improved sequencing of theory and practical experience for students. Allows Fanshawe to comply with provincial outcomes that are being agreed upon by all 12 CAAT programs.

2.03 Relationship of Program to Industry

- How do changes reflect trends in the field or in industry? (Provide data regarding industry and/or professional trends.)

Expanded community placement component allow for increased service to institutionalized population which aligns with community needs and trends.

2.04 Program Learning Outcomes

- How do the changes align with Ministry outcomes? (Provide a copy of the completed program map indicating gaps/overlaps that are being corrected)

New PLO's have been accepted by MTCU - provincial CAAT task force and educator working group has completed gap analysis and continues to develop exit outcomes for new program delivery. Work ongoing.

2.05 Relationships with Other Fanshawe College Programs

- Is this course in a laddered program or part of any other Fanshawe College program?

N/A

2.06 Relations with Other Post-Secondary Programs

- How will the changes affect transfer agreements with other post-secondary institutions?
- What discussions have been initiated with these institutions regarding the changes?

Articulation agreements will need to be re-visited once program curriculum work is completed and credentialing process is completed by MTCU

2.07 Changes on Fit of Program with general College Requirements for Programs

- How do changes affect the fit of the program with the College's strategic plan, program mix, general education requirements, marketing? No new impact
- Are changes consistent with Colleges policies/practices? (Identify specific areas where policies/practices need to be altered if program changes approved.) YES

3.0 Consultation Regarding Proposed Changes

3.01 Consultation With Program Advisory Committee

- Indicate feedback from the program advisory committee regarding the changes.

PAC membership have been advised of new National Competencies and rationale for CAAT program changes - feedback has been positive.

3.02 Consultation With Other Programs/Schools/Services

- What programs/schools/services have been consulted?

UWO advised as they provide clinical space.

- What feedback and suggestions have been offered through consultation?

None to date

4.0 Resource Implications of Proposed Changes

4.01 Staffing

- Outline all staffing consequences, both for the program and related areas.

Staffing workload adjustment to accommodate ongoing curriculum development. Increased staffing needed for 3rd year delivery (2013/2014).

4.02 Services

- Outline all consequences on other areas. **To Be Determined**

4.03 Space or Technology Requirements

- Outline how changes affect space and/or technology requirements. **To Be Determined**

4.04 Budgetary Implications

- Outline budgetary implications (include consequences on other schools such as increase/decrease in teaching hours required)
- Outline changes to materials fees. **To Be Determined.**
